

Pevona Ltd — AML Policies, Controls & Procedures (PCP)

1. Purpose & Scope

This manual sets out Pevona Ltd's AML framework, aligning with HMRC guidance and sector expectations. It covers firm-wide risk assessment, customer due diligence, enhanced due diligence, sanctions screening, suspicious activity reporting, training, record-keeping, and governance.

2. Roles & Responsibilities

- MLRO/Nominated Officer: Peter Banyong — oversees AML compliance, decisions on SARs, maintains registers, reports to HMRC/NCA.
- BOOMs — Beneficial owners, officers, managers listed on HMRC registration; fit-and-proper checks maintained.

3. Risk-Based Approach (FWRA)

Pevona maintains a documented Firm-Wide Risk Assessment incorporating customer, geography, service, transaction, and delivery channel risks. The FWRA is reviewed annually and on regulatory change.

4. Customer Due Diligence (CDD)

1. Collect and verify identity: photo ID (passport/driving licence) and proof of address.
2. Identify beneficial owners for corporate/trust clients; obtain structure documentation.
3. Verify right to rent (where applicable); obtain tenancy-related compliance docs.
4. Use approved referencing providers (e.g., Letmojo) for affordability and background checks.

5. Enhanced Due Diligence (EDD) & Triggers

- Non-UK resident clients
- High-value transactions
- Complex ownership structures
- Remote onboarding (non-face-to-face)

For EDD cases: obtain additional documents (source-of-funds/wealth), senior approval, and increase monitoring frequency.

6. Sanctions & PEP Screening

5. Screen all clients and beneficial owners at onboarding against the HM Treasury consolidated sanctions list; retain evidence.
6. Use electronic screening (e.g., SmartSearch) for automated checks, including PEP identification and ongoing monitoring.
7. Re-screen annually and on trigger events (change in ownership, unusual transactions).

7. Ongoing Monitoring

Conduct annual reviews of active clients; monitor transactions for anomalies (third-party payments, unusual rent patterns). Document findings and actions.

8. Suspicious Activity Reporting (overview)

See the separate Suspicious Activity Reporting (SAR) Policy for detailed procedures. Summary: staff report suspicions to MLRO; MLRO evaluates, files SAR with NCA if necessary, and implements consent procedures.

9. Training & Awareness

Initial and annual training for MLRO; training plan scalable for future staff/contractors. Maintain training logs.

10. Record-Keeping

Store records in secure cloud systems; retain AML records for minimum 5 years after the end of the relationship/transaction. Maintain CDD/EDD evidence, screening results, SARs, training logs, and audit findings.

11. Client Money Controls (UKALA CMP)

Operate via designated client accounts under UKALA Client Money Protection. Limit cash handling to petty cash; reconcile accounts and allow audits per CMP requirements.

12. Quality Assurance & Audit

Annual effectiveness review led by MLRO; action plan tracked; policy updates version-controlled.
